2025

A person with long hair, wearing a black jacket with yellow reflective stripes, is standing inside a large black tent. They are reaching up to adjust a string of warm white LED lights that are strung along the metal frame of the tent. The tent has a black canopy and a black interior lining. The ground outside the tent is a light-colored concrete surface.

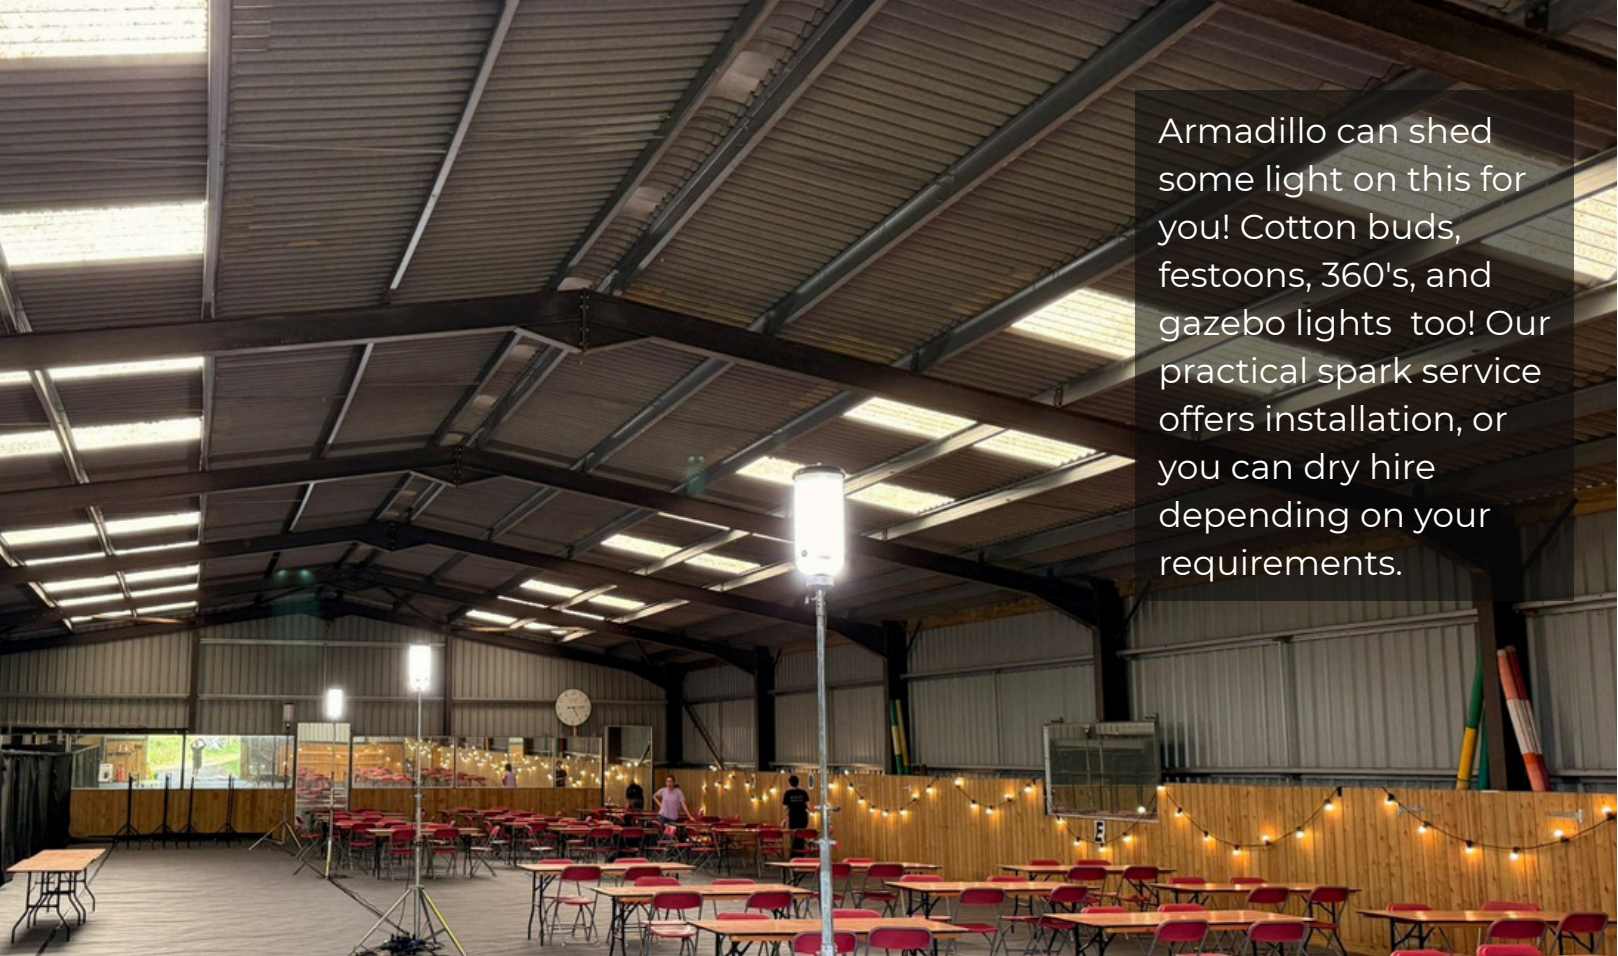

Keep your cast and crew warm and your camera kit dry - why not throw a heater and some festoons in to make it cosy!

VAN KITS / GAZEBOS

A photograph of a grand hall with high ceilings and ornate architectural details. In the foreground, a long wooden table is set up with a series of dressing room mirrors. Each mirror is mounted on a black metal frame with a red vertical stripe. The mirrors are arranged in a row, reflecting each other and the surrounding environment. In the background, an 'EXIT' sign is visible above a doorway. The floor is made of polished wood.

COSTUME AND MAKEUP

Mirror mirror on the wall, who can both hire and install? We can - and it will look gorgeous, a bit like this... We have the largest stock in the UK, so for productions big and small, give us a call!

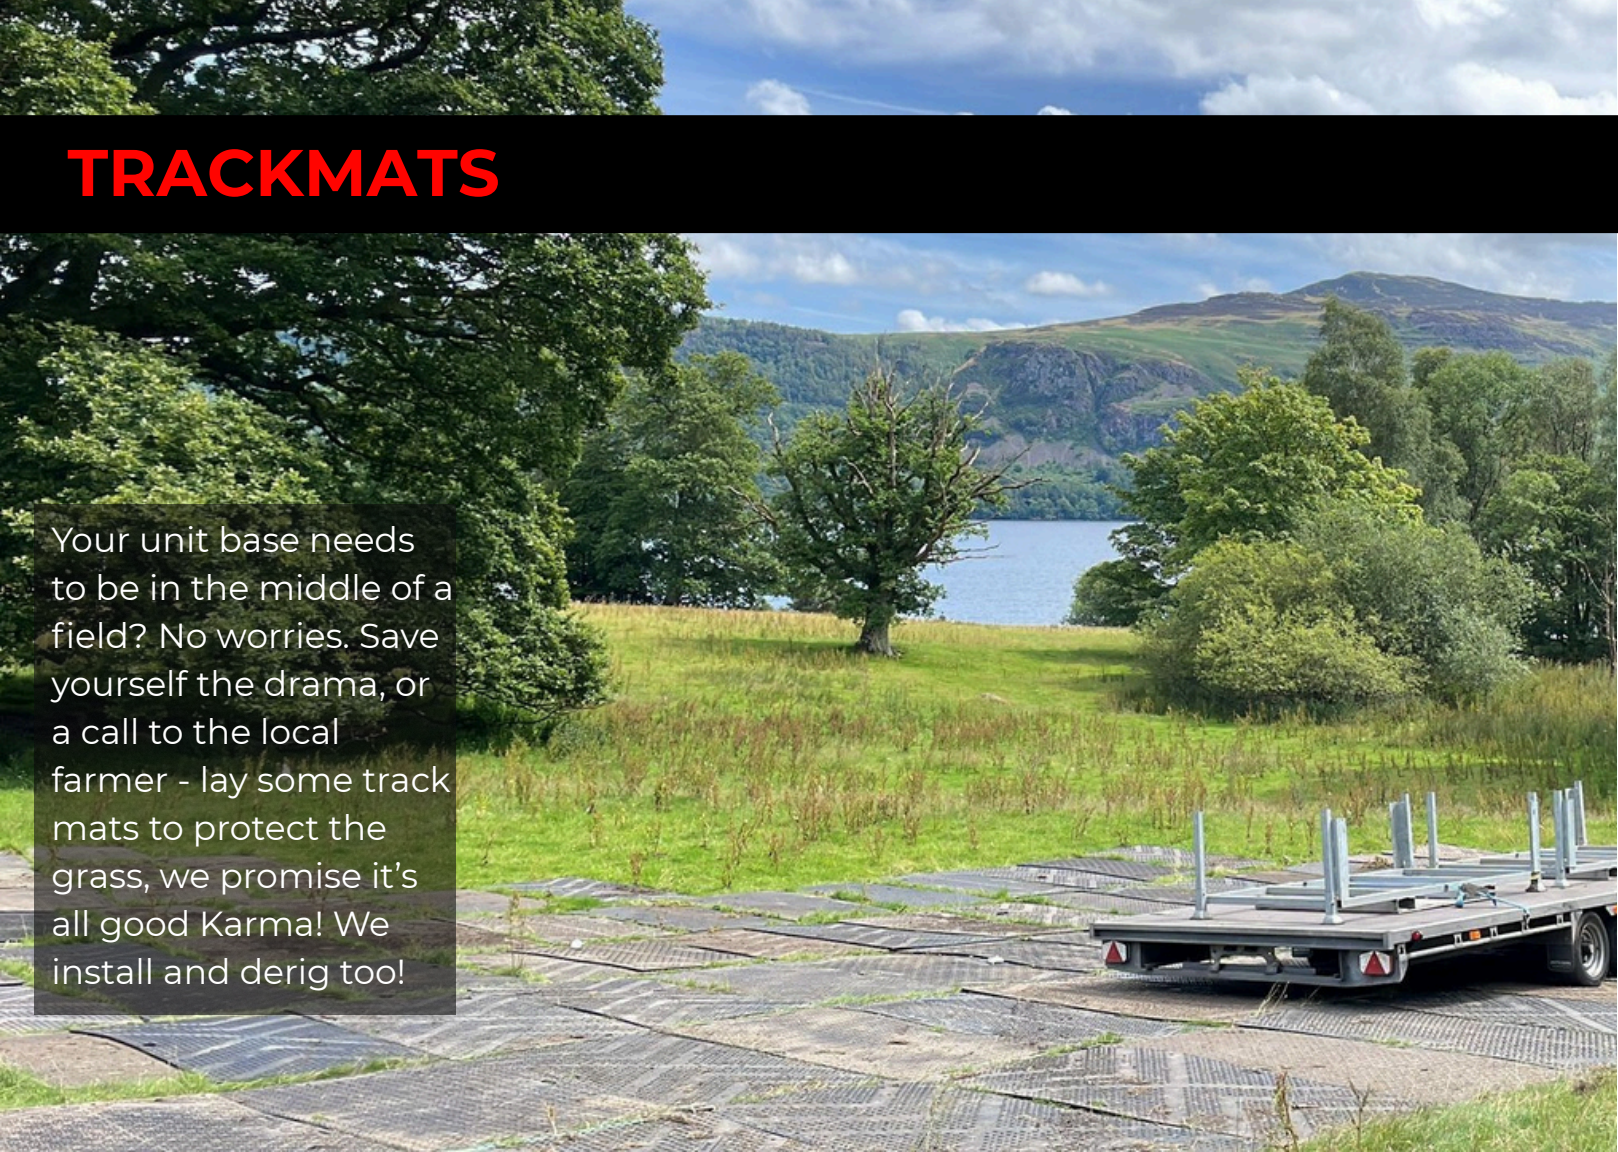

Armadillo can shed some light on this for you! Cotton buds, festoons, 360's, and gazebo lights too! Our practical spark service offers installation, or you can dry hire depending on your requirements.

PRACTICAL LIGHTING

TRACKMATS

Your unit base needs to be in the middle of a field? No worries. Save yourself the drama, or a call to the local farmer - lay some track mats to protect the grass, we promise it's all good Karma! We install and derig too!

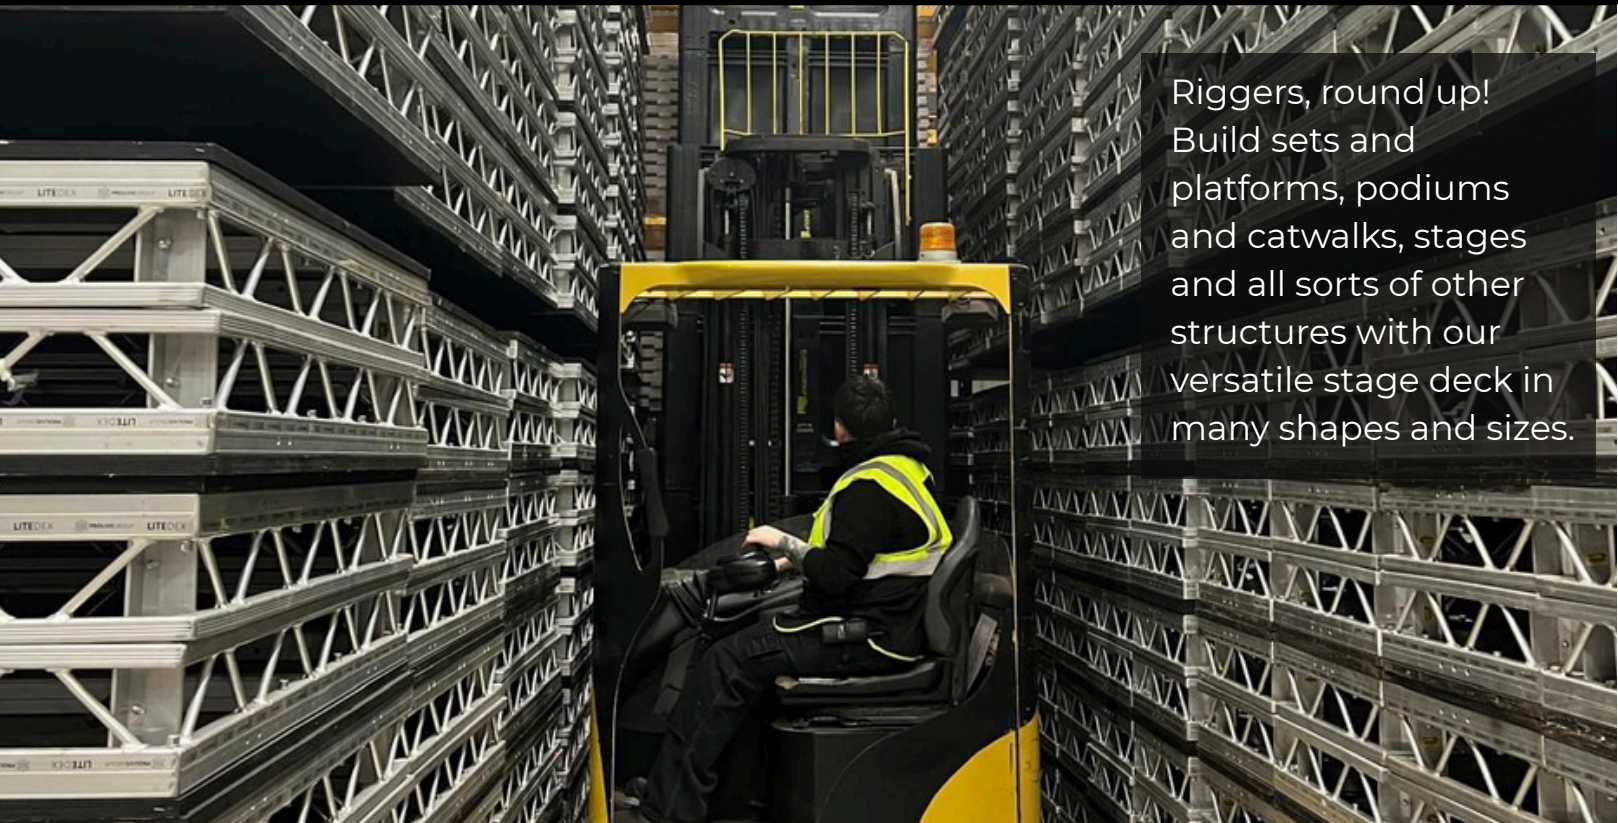

We're great at the big stuff! We can install barriers and fencing, in shot or not. Just tell us where and we'll be there!

FENCING AND BARRIERS

STAGE DECK

Riggers, round up!
Build sets and
platforms, podiums
and catwalks, stages
and all sorts of other
structures with our
versatile stage deck in
many shapes and sizes.

Our energy is unmatched, and we have distro for days... So yes, you CAN film in that derelict building with no power! Need it setting up? We can do that for you!

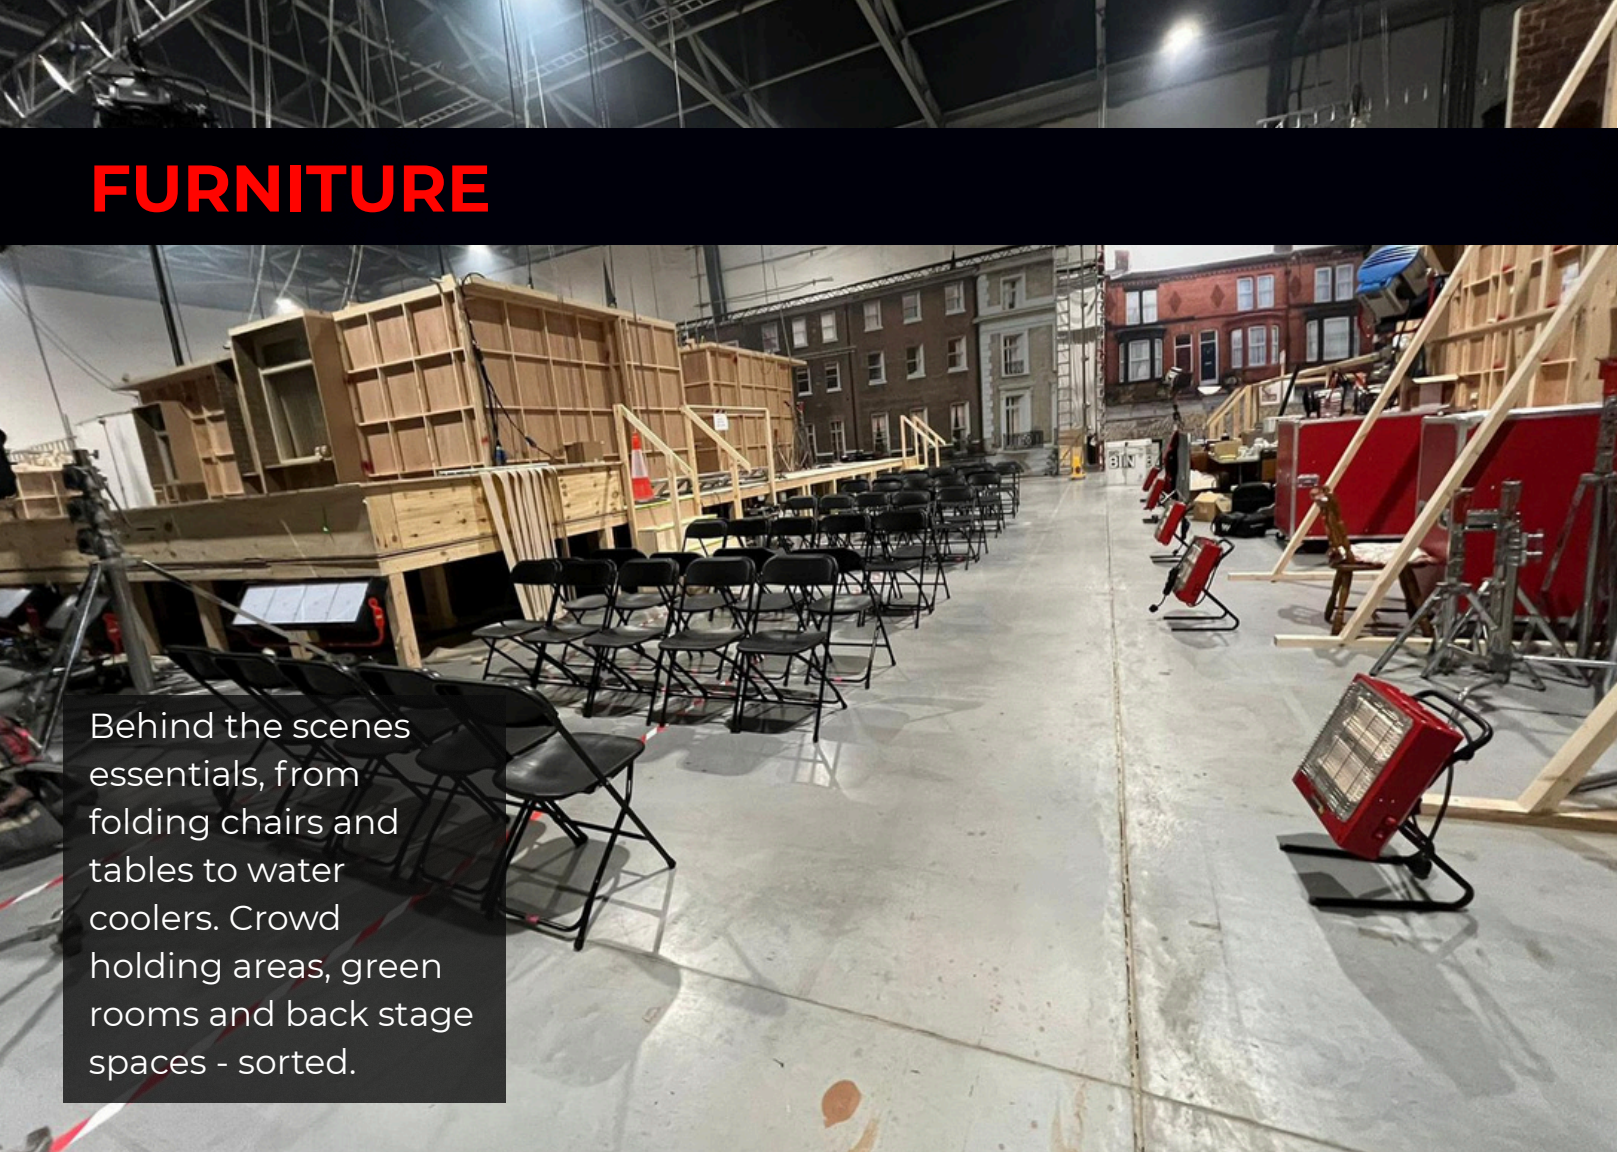

DISTRO, CABLES AND INSTALATION

Clean, green, emission-free power that fits in your boot! Our Instagrid portable power station will run your honeywagon, heaters, work lights, and more!

BATTERY POWER

FURNITURE

A wide-angle photograph of a large industrial warehouse used for stage production. The floor is a light-colored concrete. On the left, there are large, light-colored wooden structures, possibly stage sets or backdrops, some with built-in shelving. In the center, rows of black folding chairs are arranged on the floor. To the right, there are more wooden structures, including a large red one, and various pieces of equipment like a red space heater and a red fire extinguisher. In the background, a multi-story brick building is visible through an open bay door. The lighting is bright, coming from overhead industrial lights.

Behind the scenes essentials, from folding chairs and tables to water coolers. Crowd holding areas, green rooms and back stage spaces - sorted.

Some like it hot, so we stock a wide range of heaters from red rads, to ceramic and fans. Occasionally, we have rare bouts of sunshine here in the UK, so we have portable air con for those days too!

HEATING AND COOLING

CONSUMABLES

Paper cups, cable ties,
blue roll, nice eyes... :)
Just checking you were
paying attention!
Look after your location
with correx, green
fleece, shoe covers and
more!
