

WHAT CAN BEING AN EDUCATION PARTNER DO FOR YOU?

The Production Guild of Great Britain is the UK's leading membership organisation for film and TV drama production professionals. Our 1,000 members work in the production office, accounts, assistant directing, location management, post production and VFX.

We are proud to have over 100 partner companies who supply specialised services to the production industry, including all the major studios, camera, lighting and specialist equipment, accounting and finance services, post production and VFX houses, location services and production companies.

You can find a full list of benefits of being a Education Partner on the page below.

“Being an educational partner of the Production Guild has been such a boost to students on the Television Production management degree at Edge Hill University. From organising networking events with production companies, getting the very best of the production world to meet with our students, to providing dynamic webinars, they have enriched so many areas of our degree. The support they provide to our cohort after their studies is also incredibly valuable and we have a number of success stories as a direct result of connections made by the Production Guild. They also offer valuable support and insight to lecturers, making sure we are keeping our skills and knowledge as up to date as possible.”

Perelandra Beedles, *Programme Leader and Senior Lecturer BA (Hons) Television Production Management, Employability and Outreach Coordinator, Edge Hill University.*
